

# Career Cluster Town

## *Directions:*

1. Working in a group of two or three, you will imagine a mythical town with at least one business for each of the 16 Career Clusters. Create a map of your town which includes all its businesses.
2. On the map, mark where the business is located with a simple icon or logo for the business. List the business name and the Cluster into which it fits under the icon.
3. Label your map with your town's name. The name should be creative, catchy and should encourage career exploration.
4. On a separate sheet of paper, provide an explanation of your town name and a company description, mission and vision for each business.
