

# Culture Presentation

Directions:

1. You may work individually or in pairs.
2. Consider the country you chose for your essay.
3. Use the information in your essay, along with any other information you can find, to create a brochure, Microsoft® PowerPoint® presentation, or video to act as a guide for American business people traveling to the country.
4. Topics should include the four elements of business culture discussed in your Pick a Culture Essay. Your presentation should be informational and graphically appealing, as grading will consider content and design.
5. Appropriately cite all sources according to your teacher's instruction.
6. Present your project to the class in a two minute presentation, which will also be considered for grading.
