Fashion Fads

Directions:

For this *Project*, groups will research fashion fads through the decades and present your findings to the class.

1. Your instructor will divide the class into groups of three or four.

2. Select a decade to being researching. Obtain approval from your instructor prior to beginning the next steps. This will eliminate any two groups from researching the same decade.

3. Compile a list with at least five different fashion fads of the decade and a brief description of each.

4. Create a Microsoft® PowerPoint® presentation detailing the following for each fad:
   - Name of fad
   - How was the fad created and who created it
   - How long was the fad
   - Who was the target of the fad
   - At least five photos or drawing of the fashion fad
   - Do you think the fad will return
   - Any other information your instructor deems necessary

5. Remember to include a citation slide listing all sources used.

6. Share your findings with the class and be prepared to answer questions.
