

Fashion Timeline

Directions:

For this project, you will work in a group of three or four to create a fashion timeline.

1. After forming a group, you will be assigned a twenty-year period. Your timeline should include at least seven events which affected the fashion industry or the way fashion was viewed and used by society. Examples of possible events include:
 - the birth, death and accomplishments of major fashion designers, editors, etc.
 - the development of new fashion standards and styles
 - technological, social and political developments related to fashion
2. Organize your timeline chronologically, with each event represented by at least one image. In addition, write one to two paragraphs for each event describing the event and its importance.
3. Your group will present your timeline to the class.
