Technologies & Tourism Services

Directions:

1. Using the Internet, conduct research and identify emerging technologies affecting tourism and hospitality services (e.g., digital menu, online reservation systems, new payment options such as ApplePay® etc.).

2. Share your findings by creating a Microsoft® PowerPoint® presentation. The presentation should cover the use of computers in the following tourism operations:
   - Restaurants
   - Lodging properties
   - Entertainment properties

3. Include pictures or illustrations in order to better explain the technologies.
